# A SYSTEM AND METHOD FOR INDICATING THE PRIORITY
# OF VOICE OVER INTERNET PROTOCOL (VoIP) CALLS

ABSTRACT OF THE DISCLOSURE

A method for indicating the priority of a Voice Over Internet Protocol (VoIP) call includes receiving a dialed number for a connection, generating a call set up request including the dialed number, receiving a priority for the call based on user input provided contemporaneously with the dialed number, generating a priority indicator based on the priority, and transmitting the call setup request and priority indicator to a destination device.
